2023-2025 Clean Water Intended Use Plan (IUP) Projects

The Cape Cod and Islands Water Protection Fund Management Board has previously voted contingent subsidies for qualified projects listed on the Massachusetts Department of Environmental Protection (MassDEP) 2023, 2024, and 2025 Clean Water IUPs. The following projects are about to be financed by the Massachusetts Clean Water Trust and require a final commitment of subsidy from the Cape Cod and Islands Water Protection Fund Management Board.

2023-2025 Clean Water Intended Use Plan Projects Final Subsidies

Town	Project	Loan Number	IUP Cost	Contingent Subsidy	Total Loan Amount	Final Subsidy

Cape Cod and Islands Water Protection Fund Management Board
2023-2025 Projects Qualified for Final Subsidy – November 2026

Town	Project	Loan Number	IUP Cost	Contingent Subsidy	Total Loan Amount	Final Subsidy
Yarmouth	Phase 1 – WRRF and Collection System	CWP-24-67 & CWP-24-67-A	$50,000,000	$12,500,000	$50,000,000	$12,500,000
Oak Bluffs	WWTF ENR Upgrade Project	CWP-22-32	$23,000,000	$5,750,000	$27,600,000	$6,900,000
Total			$346,996,110	$82,764,177	$278,898,080	$65,582,001

*While the project is located in the Town of Wareham, the Town of Bourne is a member of the Cape Cod and Islands Water Protection Fund and is financially responsible for 17.91% of the cost of improvements to the Wareham wastewater treatment facility per an intermunicipal agreement between the two towns. The final subsidy will be applied to Bourne's share of the project.

**Harwich was previously granted a subsidy of $1,801,474 for CWP-23-19 and CWP-23-19A by the Management Board on December 18, 2025.

***The amount to be financed currently is a portion of the total IUP cost. CW-25-27 has yet to be financed.
