Re: Cape Cod Hospital - Project 2022
Withdrawal of DRI Application

Dear Subcommittee Chair McCormack and Jon:

On behalf of Cape Cod Hospital, I am writing to withdraw the pending development of regional impact application for Cape Cod Hospital's Project 2022. I will be simultaneously submitting correspondence to the Town of Barnstable withdrawing the pending Site Plan Review application.

We appreciate, very much, the time that Commission Staff has spent reviewing the application materials, working with the project team, and its positive recommendation of the project. At this point, though, with the Commission's review period ending on February 6th, and the two Towns continuing to question aspects of the proposed transportation mitigation package, my client has decided to withdraw the project.

Cape Cod Hospital is committed to providing the highest quality healthcare, and the facility upgrades and expanded services that were proposed as part of the project are needed within our community. To the extent the reformatted project requires regional review, we will submit a new DRI application.

Please let me know if you require any additional information to process this withdrawal.

Thank you very much.

Very truly yours,

Eliza Cox
