I want to express my concerns regarding the proposed structure which feels fundamentally out of character for Provincetown. Beyond scale and density, the overall form and aesthetic read as institutional rather than residential, and do not reflect the architectural language, charm, or lived-in quality that define this community. Provincetown's identity is deeply tied to its human-scaled, idiosyncratic built environment, and this proposal feels misaligned with that spirit.

I support the creation of affordable housing and believe it is essential to the future of the town. My hope is that this project can be rethought in a way that better honors Provincetown's character while also addressing the very real housing needs of the community.

Thank you for including these perspectives in the public record and for your continued work on this matter.
