Cape cod country club is exactly what a community golf course should be. Accessible, well priced, and welcoming to all. It is where I have taught my mother how to golf, and now spend countless weekend afternoons with her. This, along with the memories I have with friends walking the golf course, sharing a drink afterwards in the clubhouse, should not be demolished so a solar farm can be built that will do nothing to lower energy prices for any common person. Have some self shame if you think, or act like, this will benefit the people of Falmouth.
