As the pastor of the Provincetown United Methodist Church I have some concerns regarding this project. Specifically, the question of parking. We currently provide services for the community through the Thrift Shop, Skip's soup kitchen, several 12 Step programs, an office for Homeless Prevention and other church related business. The church has a steady stream of traffic coming in and out of our parking lot on a dalily basis. How is this project going to deal with the additional parking requirments for 40 housing units? I fear that if an adequate plan is not put into place it will have a negative impact on our ability to accomodate the members of our community who come to the church for the services we offer. The lot is there to meet the needs of our community not to provide free parking for tenants of this new facility.
