Comment

I have just returned home (January 25, 2025) to find a piece of mail from the Cape Cod Commission notifying us of a hearing on January 2, 2025 related to something happening on our road. I cannot find any documents with details about this proposal and it is distressing that one notice was given by mail to provide input, just a few weeks before said hearing. In looking at the previous notices online, it seems that this proposal has been in the works for a while. We should have received multiple notifications at each point, and they should have come via email as well as by post. A neighbor's notification was also found in our mail, so they never received it. I would like to request additional time to provide input on the project, as well as to receive all relevant materials related to the project before a decision is made. We live at [redacted], so this matter likely directly affects us.
